Dear Dr Alahassa,

Thanks for submitting your manuscript "Notes about Human Body System & Nutrition" to Frontiers in Cell and Developmental Biology, section Signaling.

You can track the progress of your manuscript on our Review Forum:

Access the Review Forum

If the button does not work, you can also access the Review Forum here.

What happens next?
Your manuscript is now in the initial validation stage, going through routine quality checks. If it meets essential research integrity and editorial criteria, it will be sent out for peer review.

Once the interactive Review Forum is activated, you'll be notified and will be able to read the review reports and submit your revisions.

Make your dataset easier to find, cite, and reuse
While your manuscript is under review, the FAIR² Data Management Service can turn your research dataset into a short, citable article. Our team prepares your dataset for your review and creates:

- A citable FAIR² Data Article that describes and links to your dataset
- An interactive data portal for readers
- A data package connected to your research

To get started, choose your journal and select FAIR² Data Article.

If you have any questions, you can contact the editorial office directly by replying to this message.

Best regards,

With best regards,

Frontiers in Cell and Developmental Biology Editorial Office
